01 PROFILE

— 64 —

Senior product designer who builds.

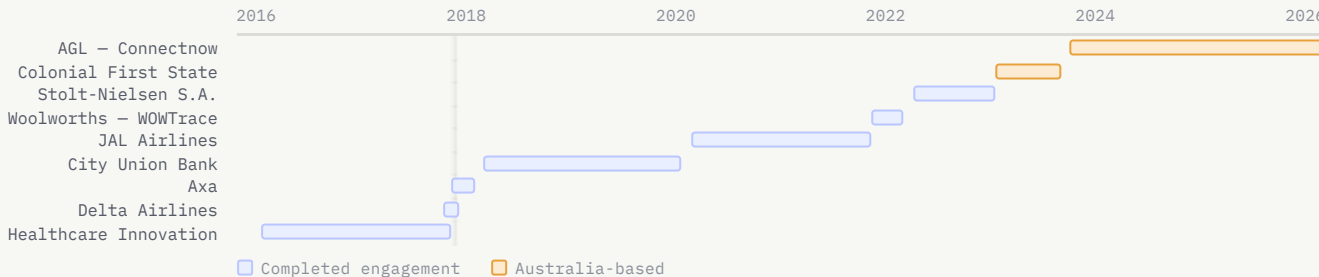

I design scalable systems, prototype in code, and stay with the work until it ships exactly as designed.

At **AGL Connectnow** I lead end-to-end UX/UI for a multi-brand energy and internet comparison platform, and built and govern its **Figma design system** (tokens, variables, typography and components) serving **4 brands across mobile, tablet and desktop**, so one product architecture ships as white-label experiences without breaking brand consistency. Before that, **Colonial First State**'s digital transformation and rebrand.

10+ years shipping products in energy, superannuation, banking, retail, logistics and aviation: design systems and governance, discovery and research, information architecture, interaction design and high-fidelity UI, **accessible and inclusive design**, **AI-assisted prototyping**, and hands-on front-end. I partner with Product and Engineering in regulated environments and close the gap between Figma and production through rigorous design QA.

02 TIMELINE

2016 → 2026

03 SKILLS

— 48 —

UX & PRODUCT

- End-to-end Product Design
- User Research
- Usability Testing
- Information Architecture
- Interaction Design
- User Flows
- Journey Mapping
- Design Strategy
- Design Thinking

SYSTEMS & UI

- Design Systems
- Design Tokens
- Component Libraries
- Design Governance
- Responsive Design
- Design QA

TOOLS

- Figma (variables, components, prototyping)
- Photoshop
- Illustrator
- Axure
- Sketch
- Adobe XD

WAYS OF WORKING

- Agile
- Cross-functional delivery with Product, Engineering & QA
- Stakeholder Workshops

04 EDUCATION & CERTIFICATIONS

— 32 —

Bachelor of Fine Arts, Painting

Government College of Fine Arts

May 2015

A painter's eye, trained before the pixels.

Infra & Data Security: Cyber Security Foundation

2024

Technology: Generative AI Foundation Curriculum

2023

Understanding & Implementing Design Thinking

2022

Design Thinking Program Foundation Certification

2022

Human-Centered Design: An Introduction

2018

Digital: User Experience (UX) Foundation

2016

05 EXPERIENCE

09 engagements

Tata Consultancy Services Limited — 10.6 years, reverse-chronological

09 AU

Jun 2024 –
Present**Senior UX/UI Designer — AGL, Connectnow**

- Led end-to-end product design for a multi-brand energy and internet comparison platform covering electricity, gas and broadband across multiple providers, from discovery through delivery.
- Built and governed a multi-brand Figma design system (design tokens, variables, typography and a reusable component library) serving 4 brands across mobile, tablet and desktop breakpoints.
- Designed complex customer journeys and conversion funnels, translating business and technical requirements into user flows, wireframes and high-fidelity UI.
- Shipped white-label experiences from one shared product architecture, keeping every brand consistent through shared UX patterns and design standards.
- Partnered with Product, Engineering, legal and QA as part of a cross-functional team, balancing customer needs, brand rules and technical constraints in design decisions.
- Ran pixel-perfect design QA against production builds, resolving UI inconsistencies before release.
- Produced interactive prototypes, UX specifications, brand guidelines and customer communication templates for consistent developer handoff.

08 AU

Sep 2023 –
May 2024**UX/UI Designer — Colonial First State**

- Delivered UX/UI design for Colonial First State's digital transformation and rebrand across customer-facing superannuation experiences.
- Translated complex business requirements into information architecture, user flows, wireframes, high-fidelity UI and interactive prototypes.
- Designed responsive experiences for desktop, tablet and mobile within enterprise brand and UX standards.
- Facilitated design workshops and stakeholder reviews with product owners, developers and cross-functional teams to validate concepts and align on direction.
- Ran design QA and wrote developer handoff specifications and documentation so production matched approved designs.

07

Nov 2022 –
Sep 2023**Senior UX/UI Designer — Stolt-Nielsen S.A.**

- Redesigned a legacy customer portal for tracking terminal stock as a responsive web and mobile experience.
- Built and maintained the product's design system and led the end-to-end UX and visual design revamp.
- As senior designer on the account, produced wireframes and high-fidelity UI and worked with developers and QA through delivery.

06

Jun 2022 –
Oct 2022**UX/UI Designer — Woolworths, WOWTrace**

- Led UX/UI design for WOWTrace, running requirements, technical and design workshops with client stakeholders.
- Created brand guidelines, user journey maps, wireframes and a style guide, working with developers and QA on handoff.

05

Aug 2020 –
Jun 2022**UX/UI Designer — JAL Airlines**

- Led user research with client stakeholders and presented findings to internal and external teams to define product goals.
- Created personas, usage scenarios, user flows, sitemaps, wireframes and prototypes; ran usability testing and iterated on user feedback.
- *Delivered every project on time with no escalations, recognised with a spot award.*

04

Jul 2018 –
Jul 2020**UX/UI Designer — City Union Bank**

- Designed core banking experiences: personas, wireframes, prototypes and interaction models grounded in user research.
- Ran concept and usability testing to validate designs, then worked with UI designers through implementation.
- *Delivered on schedule and was recognised for fast turnaround.*

03-01

2016 –
2018**UX/UI Designer — Axa · Delta Airlines · Healthcare Innovation Team**

- **Axa** (Mar–Apr 2018): modelled UX workflows, built personas and created a value-driven UX framework.
- **Delta Airlines** (Feb 2018): ran concept and usability testing and delivered wireframes and prototypes through pilot testing with the development team.
- **Healthcare Innovation Team** (Apr 2016 – Jan 2018): designed user flows, mockups and prototypes for internal digital health products and user-tested them across devices.
